

# More REBATES

Air Handlers	\$100
Plenum Heaters	\$100

## Slab Heat

Non-Hydronic System	33%
(for cost of materials)	
Hydronic System (electric boiler)	\$100

*Boiler must be properly sized per specific application.*

## ETS Units

ETS Room Storage	20%
Central Storage ETS	\$500

## Line Extension Fees

Riverland Energy requires \$500 new construction fee, which covers the first 250 feet of line.

Distances 250' - 800"	\$6.50/ft.
Over 800 ft.	\$5.00/ft.

Upon installation of an 80 gallon electric water heater and load management control, \$150 of the new construction fee will be refunded. Upon installation of a central air conditioner and load management control, \$25 will be refunded.

To qualify for rebates:  
♦ A load management control must be installed.  
♦ Must provide copy of receipt.

# Programs & Rebates

## Appliance & Lighting

To receive your appliance rebate, cut out the ENERGY STAR® label on the product, attach it to the completed rebate form along with a detailed and legible copy of the receipt. To receive your lighting rebate, you must submit the rebate form and a copy of your receipt. If the receipt does not indicate it's a CFL, you must submit proof from the package.

## Water Heater Program

Riverland Energy offers rebates for the installation of electric hot water heaters. The installation will be inspected by the Riverland Energy load management department and a load management control must be installed. A copy of the receipt is required.

## Central Air and Heat Pump Programs

Riverland's heat pump and air conditioning program was created in the spirit of reducing member's overall space heating and cooling energy costs.

### Rebates

Clothes Washers	\$25
Dishwashers	\$25
Dehumidifiers	\$25
Refrigerators	\$25
Room Air Conditioners	\$25

Compact Fluorescent Light (CFL) bulbs	\$1*
Large CFL (60 Watts or larger)	\$5*
Light Emitting Diode (LED) bulbs	\$2*

\*(not to exceed cost of bulbs)

*Holiday lighting must have at least 25 lights in each string to qualify.*

**Refrigerator/freezer recycling	\$25
**Window air conditioner recycling	\$25

*\*\*Receipt indicating that the unit has been recycled in an environmentally safe manner is required.*

### Rebates

50 gallon	\$50
80 gallon <i>*(energy factor greater than .90)</i>	\$250
80 gallon <i>*(energy factor less than .90)</i>	\$125
Over 100 gallons <i>*(energy factor greater than .85)</i>	\$325
Over 100 gallons <i>*(energy factor less than .85)</i>	\$150
**Heat pump water heater (integrated)	\$300
Solar storage w/electric auxiliary tank	\$300
Contractor installation <i>(retrofit only)</i>	\$75
Self installation	\$30
Contractor repair	\$75
Self repair	cost of parts only

*\*Electric water heaters must meet minimum efficiency standards (energy factor) in order to qualify for rebates.*

*\*\* Control not required for heat pump water heater.*

### Rebates

#### Air Conditioner

14 SEER	\$40/ton
15 SEER	\$60/ton
>16 SEER	\$80/ton

◆ A controlled central air conditioner qualifies for a \$5.00 monthly credit in June, July, August & September.

#### Heat Pump

Air-to-Air (14 SEER or greater)	\$120/ton
Geothermal	\$200/ton

## Dual Fuel Program

Riverland Energy offers an off-peak heating/cooling program to provide the heat requirements for a building with an off-peak electric heating system, except during Peak Times when the back up system takes over. With the dual fuel program, two meters are required. Any form of electric heat, heat pump, and the electric water heater may be put on the dual fuel meter - billed at a substantial savings compared to the regular rate. Riverland Energy can provide the double meter socket for \$100.
