Electrician _____ Phone _____

Address of New Service _____

County _____ Township _____ Section _____

Date Electric Service Requested: _____

Interest in Property: Owner _____ Builder _____ Other _____

I, the undersigned, do hereby request Riverland Energy Cooperative to extend and supply electric service to the above-indicated service. I have met with a representative of Riverland Energy Cooperative and have discussed the placement of electrical facilities (poles, transformers, underground boxes, cables, etc.) to be installed on my property. The proposed location of these facilities has been marked with white flags and/or white paint prior to construction. I understand and approve of the location of these facilities and warrant that such placement of facilities are clear of any privately owned underground facilities, such as service wires, gas lines, water lines, septic systems, etc. I hold harmless Riverland Energy Cooperative from any actions or claims resulting from any damage to privately owned facilities due to my request for poles, anchors, and/or underground facilities. I understand it will be my responsibility to replace or repair any such facilities should they become damaged.

I understand that I may be asked to contribute to the cost of construction as per Policy #9, which I have read, and signed.

I will execute an easement on the property, become a member of the Cooperative, and pay all required fees and deposits. I will comply with all requirements to provide the necessary facilities for connection to the Cooperative's facilities. I accept the responsibility for all costs incurred to move, relocate, or change the electrical facilities from their initial installation site as per my request, action or approval.

If I am not the owner of the property, I will assume the responsibility for notification and approval of the owner.

Construction of this service will not be scheduled until this form is signed and returned to Riverland Energy Co-op.
