

SPRING BRINGS ELECTRICAL SAFETY DEMONSTRATIONS

Every year as part of the cooperative's commitment to safety and community, Riverland Energy presents a one-hour electrical safety demonstration to local elementary students throughout our service territory during the month of May. This year, we presented to over 2,500 students at 21 schools throughout our area.

During the presentation, students learn about the basics of electricity through a live electric home and farm model where students see firsthand what happens when people, vehicles, or equipment come into contact with electricity.

Our linemen present the demonstrations and wrap up the presentation by taking the students out to explore the trucks, equipment, and the gear they wear out on the job.

Riverland Energy values community involvement, especially when it comes to safety. Our presentations reinforce these important messages with the hope that the students bring their safety knowledge home to their families and remember them for years to come.

SERVING YOU BETTER

By Tim Holtan, CEO

I am pleased to be your new chief executive officer of the cooperative. I have been serving as the interim general manager since Jerry Sorenson retired in December, and held the position of manager of operations for 10 years prior to that. I understand the unique challenges our Cooperative faces, and am dedicated to Riverland's mission of providing safe and reliable service to our members.

A key part of service to our members is improving overall experience and offering tools you need to do business with the cooperative your way. Riverland offers ways to help you manage your account and stay on top of your electric bill. One is through SmartHub. Smarthub is a comprehensive online tool and app for managing your account. When you log in to SmartHub, you can:

- Analyze your usage and compare it with previous time periods
- View and compare bills
- Sign up for email or text notifications as to when your bill is available, when a payment is due, credit card expiration reminders, etc.
- Update your contact information or payment method
- Report an outage
- Contact us with an issue or a question

Our website also provides information on some of our most popular services such as rebates, transferring electric service, payment options, capital credits, and recent news. You can also view current outages on our outage map and update your contact information.

I encourage everyone to try these services. Whether you prefer doing business online or in person, our friendly and knowledgeable member service representatives in our Arcadia and Holmen offices are always happy to serve you.

Congratulations!

2023 SCHOLARSHIP RECIPIENTS

Riverland Energy Cooperative recently awarded 32 \$1,000 scholarships to students who are seeking to advance their education beyond the high school level. The monies from these scholarships are made available by unclaimed capital credits from former members. The recipients were selected in a random drawing at the cooperative's annual meeting on Saturday, March 25.

YOUTH AMBASSADORS LEARN WHAT IT TAKES TO DELIVER ELECTRICITY

The Riverland Energy Youth Ambassadors got a glimpse of how our system works and what it takes behind the scenes to keep electricity flowing. Riverland's Manager of Operations, Rob Sosalla, gave a presentation on the job duties of a lineman, the main causes of power outages, and what it takes to restore power. The ambassadors also got the chance to take a trip to a substation learn about solar energy and got an up-close look at our solar panels. Riverland's Safety & Compliance Manager, Ben Bella, talked about preparing for the future and presented on the importance of safe driving and being safe around power lines.

This was our last meeting for the 2022-23 youth ambassadors. We will continue with volunteer work this summer and the program will end with our Youth Leadership Congress in July.

JUNE IS DAIRY MONTH

In recognition of Dairy month, Riverland Energy Cooperative would like to take a moment to salute local dairy farmers and the entire dairy industry. The cooperative appreciates the outstanding effort and vital contributions dairy farmers make to the area. Our employees and directors thank you!

DO YOU HAVE CAPITAL CREDITS TO CLAIM?

Listed below are the names of members who are entitled to capital credit refunds. Riverland Energy would like to return capital credits to those who earned them; otherwise, the unclaimed capital credits will be forfeited and assigned to the Federated Youth Foundation. These funds are then used in the cooperative's scholarship and education programs. Claims may be sent to the cooperative by email to bmathson@riverlandenergy.com, by mail, or by calling 800-411-9115. Pursuant to Wisconsin Statutes Section 185.03 (10), you are hereby notified that Riverland Energy Cooperative of Arcadia, Wisconsin, has in its possession unclaimed funds belonging to you. You may claim these funds on or before September 25, 2023. You are further notified that unless you do claim such funds and provide satisfactory evidence of your right to receive the same, these funds will be forfeited to the cooperative.

BE PREPARED FOR STORMS AND POWER OUTAGES

Summer storms are always a threat. If you experience an outage, check to see that the power issue is not on your side of the electric meter. Check fuses and circuit breakers in your home.

When calling in an outage, please have this information available:

- Your account number
- Name on the electric account
- Service address where outage is occurring
- Phone number on the account
- Cause of outage if known

If you call after business hours or during widespread outages our call center, Cooperative Response Center (CRC), will answer and assist you. During widespread outages, power is resorted systematically. Attention is given first to substations and main feeder lines, followed by individual members.

There are three ways to report an outage:

- **Call** 800-927-6206. After hours: Press #1 to report it via automatic phone recorder; or press #3 to talk to someone.
- **Text** in your outage at 55050. (Must be signed up for outage texting)
- **Online** through SmartHub. Login and follow the prompts for outage reporting and the information will automatically be sent to the dispatch team.

High-Volume Call Answering System

Our high-volume automated call answering system (automatic phone recorders) helps relay problems to our staff quickly and effectively during major interruptions. This system helps us pinpoint issues during major events which allows us to more efficiently dispatch crews. Although the automated system can be frustrating at times, it allows us to take a high volume of calls in a short amount of time. We, as would you, prefer direct contact during outage situations. However during periods of high call volume, our automated system collects outage information thereby allowing REC staff to focus on restoring your power.

You can view current outages on our live outage map online at www.riverlandenergy.com.
